# ABOUT

INRacing eSport Home Racing Cockpit, is the perfect cockpit which brings the race track to your home. Home Racing cockpit is the perfect solution to enter the world of sim racing. The adjustments are meant to give you the authentic racing position. The compact and minimalistic design of the cockpit provides you with a rigid and realistic racing experience without a huge footprint (5feet length x 2feet width)

The modular design enables you to easily separate the seat from the frame. You may continue to use the seat for TV viewing pleasure.

The collapsible frame can be safely stored away

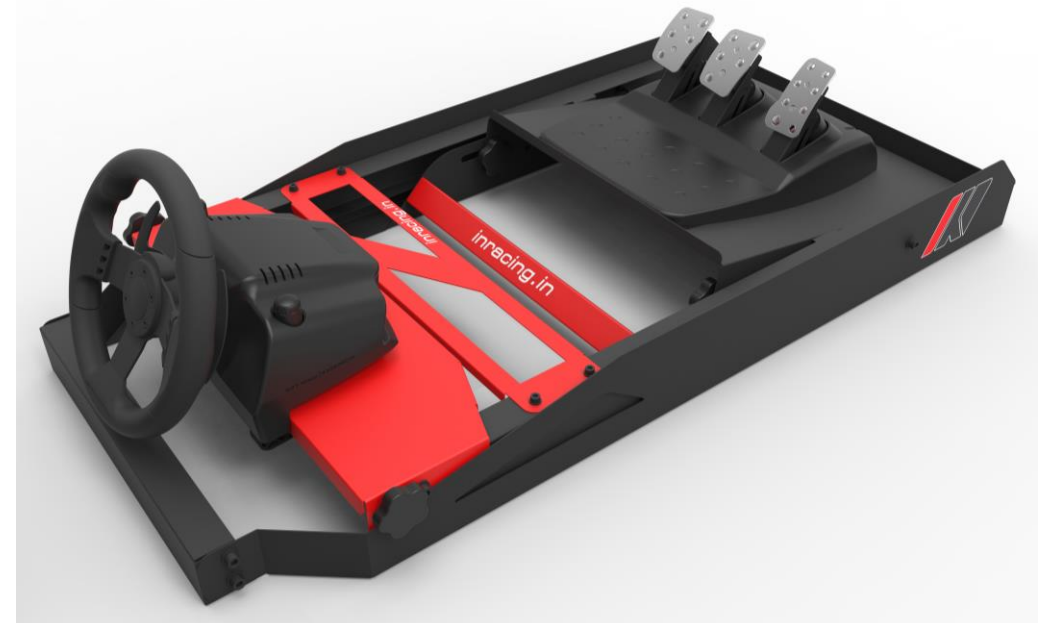

## MODULAR

Separate the seat from the frame

## FOLDABLE AND COMPACT

Safely store away the frame
