

## G29

Driving Force Racing Wheel for PlayStation®4, PlayStation®3 and PC

## G920

Driving Force Racing Wheel for Xbox One™ and PC

### REALISTIC FORCE FEEDBACK WITH ANTI-BACKLASH HELICAL GEARING

- Dual-motor force feedback that is designed to realistically simulate the feel of your car and tires on every turn and type of terrain to feel under- or oversteer, drifting and more.
- Helical gears provide exceptionally smooth, quiet and precise steering action.
- Anti-backlash tensioning keeps the wheel and pedals tight, maximising your control.

### EASY-ACCESS GAME CONTROLS

- D-Pad, console buttons and semi-automatic paddle shifters are conveniently located on the wheel.
- The LED indicator lights positioned just above the centre of the wheel tell you exactly when to up- or down-shift so you can maintain maximum acceleration without taking your eyes off the track.

### 900° STEERING

- The 900-degree lock-to-lock rotation means you can turn the wheel around two and a half times, hand over hand on wide turns.
- It's the same degree of motion as a steering wheel inside a car.

# G29 & G920

Driving Force Racing Wheels

## RESPONSIVE PEDAL UNIT

- It comes with a separate floor pedal unit so you can comfortably brake, accelerate and change gears like you would in an actual car.
- The nonlinear brake pedal mimics the performance of pressure-sensitive brake systems for a more responsive, accurate braking feel.
- Rubber feet for hard surfaces and a patented retractable carpet grip system help your pedals stay right where you put them.

## RACE-READY MATERIALS

- Driving Force is built for long-lasting reliability. Solid steel ball bearings in the wheel shaft and stainless steel paddle shifters and pedals.
- It's covered in high-quality, hand-stitched leather, with the look and feel of a high-performance racecar wheel.

## WORKS WITH DRIVING FORCE SHIFTER ATTACHMENT

- Add the 6-speed manual Driving Force shifter to your racing wheel setup.

PRODUCT	G29	G920
